## SENIORS:

Tomorrow's leaders in many of the activities in our American way of life are now in the 'graduating senior classes in the high schools of our nation. The members of the 1962 graduating classes have a great responsibility facing them in the services of our country, and in the many divisions of its economy.

No doubt, some of you boys and girls at Central will be placed in the role and the responsibility of assuming your share of these activities within a few years. Your participation in these front line activities will depend upon your preparation and desire to accept the challenge.

I believe that you have the qualities which additional years in colleges and universities will develop and enable you to bring your ambitions and goals to a reality.

I congratulate you upon being a member of the 1962 Senior Class. My best wishes go with you, and I shall always be interested in you and your future.

Sincerely,

Harry D. Simmons  
Superintendent

## TO THE GRADUATES OF 1962:

Congratulations to the largest graduating class in the history of Central. We are proud of your record. Are you going to prepare for and adjust to a world concept? Will you prepare yourself for great changes ahead? A survey found recently that 50% of the people industrially employed in our country are making their living at jobs which did not exist fifty years ago. Now, what is coming in the next fifty years?

If we were to call back this graduating class for a reunion fifty years from this year, we would very likely find more than half of you making your living at jobs nobody in the world has yet heard of, and many of you would come back from countries all over the world, because your generation is destined to have the entire earth as its territory.

Graduates, are you thinking BIG? Will you continue your education to meet this challenge of today's youth? This is my prayer for you. May the Good Lord bless and keep you. You are a great class.

Sincerely,

Your principal,  
B. L. Wertz
